How to register for PHPS 202: Overview of Drug Classes – Distance Learning

If you are already a classified UH Hilo student, you just need to register for the course through MyUH along with your other courses. Follow the instructions below if you are not a UH Hilo Student and want to take this course.

Pre-Requisite Requirements
All students must have completed the following courses with a C or better in order to register for PHPS 202:

- Introductory Biology I and II (BIOL 175&176 at UHH, BIOL 171&172 at all other UH Campuses) or equivalent.
- General Chemistry I & II (CHEM 124&125 at UHH, CHEM 161&162 at all other UH Campuses) or equivalent.
- If you have questions about pre-requisites, contact gte4@hawaii.edu.

Apply to UH Hilo as an Unclassified Student by the UHH Admissions deadline:
1. Go on-line to UHH Admissions and fill out the form https://www.sis.hawaii.edu/uhdad/bwskalog.P_DispLoginNon
2. Create an ID and PIN
3. Choose UH Hilo as campus
4. Under Application Type select CONTINUING EDUCATION. This will allow you to apply as an unclassified student.
5. Unclassified students will have the $50 fee waived and no transcripts are necessary for enrollment.
6. Complete the rest of the form.
7. You will receive an acceptance letter within 1-3 weeks.

If you have any problems with this section then contact UH Hilo admissions (Phone – 808-974-7414 or e-mail: uhhadm@hawaii.edu)

Tuition & Fees for PHPS 202
- For information on UHH Tuition & Fees, please visit: http://hilo.hawaii.edu/uhh/bo/tuition_schedule.php

Note for UH students at other campuses: this fee will be charged in addition to tuition at your home institution.

Register for class:
1. After you have received your acceptance letter from UHH Admissions, register for the class.
2. Registration for the online class is with instructor permission:
   a) E-mail gte4@hawaii.edu stating that you want to take PHPS 202. You MUST include your name, student ID number and home campus in the e-mail. If you are not a UH System student, please include the list of courses you have taken that meet the pre-requisites (see above).
   b) Wait for confirmation e-mail that you are allowed to register.
   c) Go online and register for the class at My UH using the course CRN: https://myuh.hawaii.edu/cp/home/displaylogin

Payment information:
After you register for the course, you will need to pay your registration fee. Payment instructions are online: http://www.uhh.hawaii.edu/uhh/bo/BillingandPaymentDeadlines.php.
Class Schedule:
The UHH face-to-face class meets three times per week for one hour. Lectures will be posted after each class on Laulima (our online collaborative server), for Distance Learning (online) students.

Please see below for PHPS 202 frequently asked questions (FAQs).

FAQs

1) Have I completed the admissions process correctly?
If you have any problems with admission then contact UH Hilo admissions (Phone – 808-974-7414 or e-mail: uhhadm@hawaii.edu)

2) Is this class required for application and admission to the UH Hilo College of Pharmacy?
No, this is an optional course offered by the UH Hilo Pre-Pharmacy Program. It is intended to give students an introduction to pharmacology and an overview of the major drug groups.

3) Do I have to be a student at UH Hilo to take the class?
No

4) What is this class about?
This course is an introduction to many of the important groups of drugs used in medicine. For each drug or drug class, the mechanism through which it exerts a therapeutic effect will be explained at a basic molecular and biochemical level.

5) How will this class work?

Lectures – The “in class version” of this class will be offered at UH Hilo three times per week for one hour throughout the semester. These lectures will be recorded and within 24 hours of the in class lecture, the video will be posted in the Resources section of Laulima which will allow students to watch a narrated Powerpoint slide show from class. Each lecture will be approximately 50 minutes in length. You will be provided with a PDF file of the slides for each class which we suggest you print out and make notes on as you view and listen to the lecture. Although you can view lectures in your own time, we expect you to have completed viewing the previous week’s lecture files before the start of the next week. If one of the class days falls on a holiday then there will not be a lecture on this day.

Homework Assignments – There will be four homework assignments throughout the semester, each worth 10% of the final course grade. The assignments will be administered through the Assignments tool in Laulima. You will either copy and paste your assignment into the box in Assignments or attach it as a Word File. Assignments that are submitted late will result in a 3 point reduction in score. Homework assignments will involve tasks such as researching a particular drug or drug class and providing information such as dosage form, mechanism of action, etc. You will be provided with a clear rubric as to what is expected for each homework assignment when it is posted.

Exams – There will be four exams throughout the semester, each worth 15% of the final course grade. Exams will be administered through the Test tool on Laulima. You will have a 24 hour period in which to complete the exam – this will be on the day assigned in the schedule at the end of the syllabus. Once you start the exam then you must complete it within the time assigned. We expect you
to avoid dishonest practices while taking the exams. We ask that you remove any course materials that would assist you from the area while you take the exam and do not access the internet apart from the Laulima exam web pages during this time.

6.) What if I have more questions?

Contact Gary Ten Eyck with any additional questions: (808) 933-2986 or gte4@hawaii.edu
