

Laptop requirement for the DKICP Class of 2021 (May 2017)

All students in the Class of 2021 are highly recommended to purchase a laptop computer for use during their four years of study in the PharmD program. Additionally, UHH-DKICP uses ExamSoft (electronic testing software) and a laptop meeting the specifications below will be necessary for you to be able to sit for your exams. (If you already own a laptop with these minimum specifications, there is no need to purchase a new one).

Please note:

- SofTest cannot be used on virtual operating systems such as Microsoft's Virtual Machine, Parallels, VMware, VMware Fusion or any other virtual environments.
- **The DKICP licensed version of ExamSoft will not operate on Mac tablets.**
- **ExamSoft does not support Tablet or Convertible devices other than Surface Pro 1, 2, 3 & 4.**

If you would like to purchase a computer or software from the UH Hilo Bookstore please visit: <http://www.uhbooks.hawaii.edu/computers/lists.asp>. If they do not have what you need in stock, they will order for you from the UH Manoa bookstore. We highly recommend that you purchase your laptop before coming to Hilo in August. Purchasing from the bookstore may be delayed by weeks or months.

Please note: It is your responsibility to maintain your computer; DKICP does not provide hardware or software technical support for student computers. You might want to consider an extended warranty which covers you while you are a student in the program. Additionally, should you be receiving financial aid, financial aid will be allocated upon request to cover the cost of one computer during the four-year program.

How to check your computer specifications:
