

University of Hawai'i at Hilo The Daniel K. Inouye College of Pharmacy

Criminal Background Check and Drug Screening Acknowledgement

I acknowledge that the Pharmacy Practice Experience Preceptor sites (hospitals, clinics, retail pharmacies and other patient care service industries) may perform or require The Daniel K. Inouye College of Pharmacy (DKICP) to divulge any evidence of a criminal background check and drug screening before DKICP students may participate in Pharmacy Practice Experience(s). The preceptor site maintains the right to refuse a student admission to their site based upon the findings of the background check or drug screening. The Daniel K. Inouye College of Pharmacy cannot guarantee placement of the student at a preceptor site if criminal background checks and drug screenings are not congruent with the preceptor site requirements. In this case, the University will not be held liable if the student may not achieve satisfactory completion of required coursework to confer a degree.
